PARADISE SPIRAL

T-BAJ-LP-0001-U

Inspired by the magnificent Odeon buildings in ancient Greece and Rome, originally constructed for musical performances. Traditionally, they had beautifully carved domed roofs for maximum acoustics, with a space in the top for natural light to flood in. The light's spiral design mixes architectural elements from the biblical Tower of Babylon with the helix effect of a spiral staircase, bringing ancient drama and modern glamour to a room.
