

BARKER AND STONEHOUSE GENDER PAY GAP 2022

At Barker and Stonehouse, we are proud to foster a progressive company culture with many long serving members of staff who help us to create a positive working environment.

Over recent years we have endeavored to reduce the Gender Pay Gap, however, we acknowledge there is more work to do.

Our Gender Pay Gap figures are based on our data capture carried out in April 2022, based on 406 employees across Barker and Stonehouse which we believe to be accurate at that time.

THE MEDIAN AND MEAN PAY GAP

MEDIAN GENDER PAY GAP

12%

our median gender pay gap

MEAN GENDER PAY GAP

19%

our mean gender pay gap

percentage of our male employees who received a bonus

percentage of our female employees who received a bonus

our mean gender pay gap for bonuses

our median gender pay gap for bonuses

PERCENTAGE OF FEMALES IN EACH QUARTILE

Lower pay quartile

Lower Middle Quartile

Upper Middle Quartile

Upper Quartile

CLOSING THE GAP

The pandemic still has had an impact on 2022 figures. We will continue to strive to close the gap and ensure Managers continue to have training in order to take action which will help continue to close the gap.
